

# INTERNATIONAL CONFERENCE ON EURASIAN ECONOMIES

## 2011

## PROGRAM

## Bishkek - Kyrgyzstan 12-14 October 2011

**Promotion Fund of Prime Ministry**

**Central Bank of Turkey**

It is a great pleasure to welcome you to the International Conference on Eurasian Economies 2011, jointly organized this year by the Economics Departments of Beykent University and Kyrgyzstan-Turkey Manas University. We want to express our pride in seeing that this conference became a traditional international academic event with increasing interest and support by international institutions, academicians and researchers in Eurasia.

We are very happy to organize the International Conference on Eurasian Economies 2011 at Kyrgyzstan-Turkey Manas University located in Bishkek, the capital and the largest city of Kyrgyzstan. On the path of historic Silk Road between the East and the West and located at the heart of Central Asia, Kyrgyzstan is a magnificent country with snow-capped mountains, deep valleys, thousands of rivers, mountain lakes and historical monuments. We believe that organizing the conference in a country at the heart of Asia that played a critical role throughout centuries will provide an important basis for investigating issues, evaluating problems and developing policies for the Eurasian economies. The topics to be presented at the conference cover a wide variety of subjects with vital impact on the region such as globalization and its impact on Eurasia, integration of Eurasian economies to the world economy, economic growth and development strategies in Eurasian economies, international trade, migration, financial markets and institutions and public policies.

Our aim is that the annual series of International Conferences on Eurasian Economies will provide a basis for collaboration of decision makers and academicians in Eurasia and will establish a scientific discussion platform regarding the economic development process faced by the Eurasian economies. We hope that the 2011 conference will constitute the basis for the formation of an Eurasian economists association for collaboration of researchers, academicians and decision makers from different universities and institutions in order to develop analyses and propose policies.

For the 2011 conference, we received 145 abstracts from over 20 countries, such as Kazakhstan, Uzbekistan, Tajikistan, Russia, Ukraine, Moldova, Georgia, India, Germany, Poland, Japan, as well as Turkey and Kyrgyzstan. You will find 80 selected papers in this proceedings book.

We are indebted to all the researchers and academicians who participated at the conference by submitting their distinguished work for presentation. We believe that their contributions will be greatly beneficial to the economies of Eurasian countries. We are looking forward to meeting you in another Eurasian country at the International Conference on Eurasian Economies 2012.
